# INTERNAL CONTROL PROCESS

A strong internal control system is one of the best mitigation strategies for managing operational and financial risks.

An effective internal control process provides the users with a "reasonable assurance" that operations are conducted in an efficient and effective manner, compliance requirements are being met adequately, and that the financial information presented are accurate and complete which can be relied upon for informed decision making. It also plays an important role in preventing fraud, detecting fraud, and protecting tangible and intangible assets or resources.

In this program, the definition of internal control, its objectives, benefits, and types of internal control will be discussed. Design and implementation of internal control based on the COSO framework and its monitoring will be explained. In the last module, we will discuss how internal auditors can effectively review internal controls, identify deficiencies and provide recommendations for improvements.

# **LEARNING OUTCOMES**

- To understand the fundamentals of internal controls, its definition, objectives and components
- To learn about the COSO framework, its alignment to risk management and implementation of internal controls in the context of legal requirements.
- To understand the broader considerations when internal auditors review internal controls, identify deficiencies and provide recommendations.

### **PROGRAM OUTLINE**

### Module 1:

Fundamentals of Internal Control

- Overview
- Definitions
- Internal Control Framework
- Control Objectives
- Types of Control
- Responsibilities
- Key Benefits

### Module 2:

- Cost vs Benefits

## **ABOUT THE TRAINER**

### **NGSHANKAR**

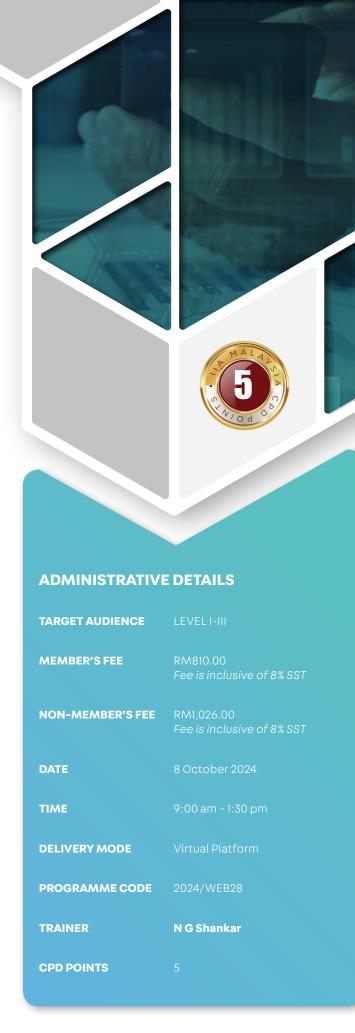

FCA, CIA, OIAL

N G Shankar is an audit practitioner and thought leader with an overall experience of 40 years in diverse industry sectors and professional practice. He spent his initial career in accounting, treasury and corporate finance in various companies and then took up a specialized role as Head of Internal Audit at ABB India, a multinational company. He retired as Group Executive President-Corporate Audit from Aditya Birla Group (ABG), a \$48 billion Indian multinational conglomerate, where he led the internal audit activity for a majority of ABG's businesses including metals, carbon black, cement and telecommunications across multiple geographies.

His overall industry exposure includes chemicals, oils, pharmaceuticals, electrical engineering, retail, mining and BPO. He has closely engaged with board members in diverse industry sectors and has travelled widely to more than 25 countries across West and South Asia, Europe, Americas, Africa and Australia.

Shankar has been actively involved in honorary and advisory positions with the Global Institute of Internal Auditors. He has authored "A Handbook on Internal Audit" for directors and senior management published by the Institute of Directors, India. He has been appointed as an independent director in a micro finance company in India.

Shankar is an avid speaker in conferences and conducts training for internal auditors and board members. He is passionate about the technical and behavioral aspects of internal auditing, risk management, governance and fraud. Trained as a performance coach, he has provided coaching to individuals outside the audit function.
