ESG AUDITING TECHNIQUES: PROVIDING ASSURANCE ON THE SUSTAINABILITY STATEMENT OR REPORT

PROGRAM OVERVIEW

Bursa Malaysia's Main Market Listing Requirements issued an enhanced Sustainability Reporting Framework on 26 September 2022 which requires a Listed Issuer (PLC) to report on 11 mandatory common material sustainability matters and indicators that affect the Group's economic, environmental and social elements. Commencing year ended 31 December 2023, the Sustainability Statement or Report of Listed Issuers must include a statement on whether the Sustainability Statement has been assured; i.e. the Statement of Assurance.

The Sustainability Reporting Guide issued by Bursa Malaysia highlights that the Statement of Assurance on the sustainability/ESG disclosures provides a method whereby the organisation can demonstrate the credibility of its sustainability disclosures. Such assurance builds both investor and industry confidence that the information disclosed is reliable and improves transparency. Internal assurance on the Sustainability Statement or Report may be provided by the internal audit function through ESG auditing techniques.

This program will use practical case examples to walk internal auditors through the process of determining the scope and coverage of sample assurance assignments through workshops and applying relevant audit procedures to assist in providing sustainability assurance.

COURSE OBJECTIVES

The program seeks to help participants to:

- Be familiar with and understand the Bursa Malaysia Main Market Listing Requirements on the enhanced sustainability reporting framework issued in 2022 and MCCG 2021 updates on corporate sustainability disclosures.
 - Be aware of and understand the mandatory disclosures of common sustainability matters and indicators in the sustainability statement/report.
 - Establish criteria and determine the scope and coverage for the assurance assignment.
