IIAM PUBLIC TRAINING

OVERVIEW

For internal auditors and managers who want to understand and expand their roles related to financial reporting, as well as those who simply need a refresher on financial accounting, this course is the ideal way to get up to speed. By exploring concepts that go beyond basic accounting, this course will enable participants to approach financial auditing with renewed confidence.

In this course, participants will learn how key business processes relate to financial statements, as well as the impact of technology on financial auditing. The course will walk participants through an analysis of an organization's financial statements using case study exercises, where participants will calculate key ratios and analyze trends over time. Finally, by taking on such topics as "common recipes for cooking the books" and engaging in discussions on both historic and current fraud cases, participants will learn how to recognize "red flags" in financial statement reporting.

OBJECTIVES

- Define key accounting terms.
- Understand accounting rules, equations, and basic principles.
- Demonstrate how journal entries are used for accounting purposes.
- Discuss the Financial Accounting Standards Board's GAAP hierarchy according to FASB Statement No. 162.
- Review the characteristics of key financial statements.
- Calculate key ratios from a company's financial statements.
- Differentiate between management-level reporting and consolidated financial statement-level reporting.
- Analyze data using horizontal and vertical analysis.
- Describe revenue process activities and associated rules.
- Practice using a risk assessment template to analyze risks and design and test controls.
- Identify the basic elements of an accounting scandal (fraud).
- Discuss how Enterprise Resource Planning (ERP) supports and automates business processes.
- Identify audit techniques to use in performing an application review of a financial audit.
